Bibliographic record available from  
<http://d-nb.info/1070508888>

This volume surveys the increasing challenges facing the Arab Gulf states in terms of sustainable consumption and production. Topics include:

- Environmental sustainability: waste, recycling, water, energy, renewables, and pollution
- Economic sustainability: employment, education, training and business engagement
- Social sustainability: equality and diversity, pollution, congestion, community participation

Includes contributions from specialists from the UAE, Bahrain, Lebanon, Egypt, Oman, Saudi Arabia, Morocco and Qatar as well as from the US and the UK.

This volume is based on a workshop held at the Gulf Research Meeting organized by the Gulf Research Center Cambridge in summer 2013.
